Registration for continued insurance (Article 47a OPA)

To be filled out by the departing person, if desired

Option available to individuals who leave the mandatory insurance scheme after they turn 58 **because their employment contract was terminated by their employer (please furnish evidence)** and who are not joining any new pension fund or for persons who receive a benefit from the Foundation for Flexible Retirement in the Construction Industry (FAR Foundation) or a similar collective agreement. The option of taking out continued insurance under Article 47a of the OPA is thus only possible if the reason for the termination of the employment relationship cannot be personally attributed to or blamed on the employee (except in the case of voluntary termination on the part of the employee, upon the expiration of a temporary employment relationship or if the employer and the employee conclude a termination agreement [and the contract was terminated on the employee's own initiative]). Continued insurance cover is not an option if Tellco pk does not receive the registration form no later than 30 days after the termination of the employment contract. The insured person finances the entire annual contribution (employer and employee contribution) for the continued insurance themselves. The contribution is tax-deductible. (cf. supplementary regulations on continued insurance after leaving the compulsory insurance scheme pursuant to Art. 47 BVG)
